BOOK 1

The Anger of Achilles

Sing, goddess, of the anger of
Peleus' son Achilles,
that brought uncounted grief upon
the Achaeans,
and cast the steadfast lives of many
heroes
before their time into the house of
Hades,
leaving their bodies for the dogs
and birds to tear -
so the will of Zeus was brought
toward its fulfillment -
from that first hour when
Agamemnon, king of men,
and godlike Achilles broke apart in
strife.

Which of the deathless powers
drove them together
to quarrel? The son of Leto and
Zeus:
Apollo. For the king had angered
him,
and through the army a deadly
sickness moved;
the people fell, because Atreus' son
had dishonored
the priest Chryses, when he came
before the ships.

Working draft: Iliad 1.1-16. Greek base text: Monro

layout.

Apollo descending upon the Achaean camp. Original concept plate by CastaliaInstitute; informed by Blake's visionary line but not by a specific Blake plate. Concept-review only; not final print resolution.

PROOF NOTES

This four-page proof tests the shared page architecture: title page, verse page, full-page plate, and caption treatment. The plate is deliberately marked as original work and is not credited to William Blake. Before production approval, lock the typeface licenses, expand the page map, lock the print profile, and complete the six translation review gates.
